

State of Alaska FY2011 Governor's Operating Budget

**Department of Commerce, Community, and Economic
Development
Office of Economic Development
Component Budget Summary**

Component: Office of Economic Development

Contribution to Department's Mission

Advance the tourism, film, fisheries, forest products, minerals industries and small business assistance to increase economic activity and create new employment opportunities for Alaskans.

Core Services

- Policy recommendations and staff support to the Governor and Commissioner on tourism, film, fisheries, forest products, minerals and business development issues.
- Provide a link between Alaska communities (especially rural communities), government, businesses, and industry sectors.
- Compile industry data and provide analysis to the public and industry.
- Support development of potential growth industries and products.
- Monitor changes in Alaska's economic climate and recommend adjustments.
- Technical assistance to industry and to potential entrepreneurs.
- Support export-led development.
- Analyze the economic effect of proposed regulations on small businesses.
- Manage the Alaska Regional Development Organizations (ARDORs) program, the Made in Alaska program, the Alaska Manufacturing Extension Partnership (AMEP) and the Alaska Marketplace program (AMP).

Results at a Glance

(Additional performance information is available on the web at <http://omb.alaska.gov/results.>)

END RESULT A: Economic opportunities for Alaskans are maximized.

- Met objective of assisting development of four to six new tourism projects or businesses by assisting in startup of four new business and working with communities in southeast and western Alaska on four new projects.
- January 2009 survey was conducted in an effort to capture and establish a baseline to analyze the number of jobs, if any, created by the program.
- In 2002, approximately 37,650 jobs resulted from tourism spending in Alaska. New data expected Spring 2010.

Status of Strategies to Achieve End Result

- Increase the number of Regional Seafood Development Associations (RSDAs) by 20%.
- Exceeded goal of providing mentorship services in four to six rural community clusters by assisting nine tourism entrepreneurs in nine communities.
- Travel and tourism's economic contribution in Alaska reached \$1.5 billion in 2002. New data is expected in Spring 2010.
- Evaluation of the program has never been done. To establish a baseline in 2009 a survey was done as a way to measure the program. In addition, new display areas have been added allowing greater exposure of participant's products.
- The value of the minerals industry decreased from \$4,014.9 M in 2007 to \$3,129.8 in 2008, a decrease of 22.05%; 2009 results will not be available until this time next year, however, current projections are for a further decrease in the total value of the industry of \$230 million due mainly to curtailment in exploration and development expenditures; production values should increase slightly in 2009 (3.17%). The overall average increase in the minerals industry between 2002 and 2009 will be approximately 20.07%.
- Exploration for 2008 actually increased \$16.0 million from 2007; however, it is expected to decrease \$95.1 million between 2008 and 2009.
- Development expenditures increased from \$318.8 to \$361.5 million between 2007 and 2008, 13.39%; expenditures for 2009 are expected to decline to \$150 million, -58.5%, due to maturity of development projects.
- 2009 has shown a decrease in participants of the program by -4.64%. This maybe due to the economic conditions around the world.
- Local dollars continue to average 4:1 and more through the ARDOR program.
- Not available.

Major Activities to Advance Strategies

- Conduct and publish annual studies to determine the state of the minerals, seafood, timber, and tourism industries.
- Provide, to the maximum extent possible, information to the public regarding the minerals, fisheries, timber, and tourism industries.
- Administer grant programs as funding becomes available.
- Publish the Net Return to the State of Alaska, which documents state revenues and expenditures associated with fisheries, mining, timber and tourism.
- Network with business providers around the state and enhance service delivery.

Key Component Challenges

- Optimizing the current level of resources to meet increasing needs for economic development.
- Difficulty in obtaining accurate and meaningful industry information. Access to raw data is highly compartmentalized, fractured, and confidential.
- Interagency collaboration to develop and complete projects on behalf of the state.
- World economic recession.

Significant Changes in Results to be Delivered in FY2011

- The additional funding accommodates the new Alaska Regional Development Organizations (ARDOR), Interior Rivers, to the program. The 10% increase was to offset the amount of ARDOR funds going to the ARDOR regions, due to the increase in ARDOR regions.
- There will be no change in services realized due to the position deletion (PCN 081227). This position supported the Small Business Regulations program that sunset in FY08 and was not reauthorized.

Major Component Accomplishments in 2009

Fisheries

- Participated with an inter-agency data information committee identifying solutions to commercial crew economic activity through participation in fishing.
- Completed the Alaska Economic Performance Report 2008 for commercial fisheries.
- Responded to over 200 requests for technical seafood information covering export data and market contacts, Regional Seafood Development Associations (RSDA) formation, byproducts, loan programs, and rural seafood market opportunities.

Alaska Film Office

- Re-established Alaska Film Office
 - Hired Film Office Manager
 - Updated Film Office website
- Completed Final Regulations (published June 2009)
 - Created forms Pre-qualification and Application
- Processed eight incentive program Pre-qualifications for new productions

Tourism

- Completed summer 2008 and fall/winter 2008/2009 visitor updates for the Alaska Visitor Statistics program.
- Through the Tourism Mentorship Assistance program, the Office of Economic Development (OED) helped nine new tourism businesses get started, with the direct help from experienced Alaska tourism business owners and operators.
- Served 8,000 visitors at the Tok Alaska Public Lands Information Center (TAPLIC), transacted \$150,000 in Alaska Marine Highways System sales, and \$200,000 in Division of Motor Vehicles activities.
- OED delivered AlaskaHost customer service training for the visitor industry to 405 individuals in St. Paul, Ketchikan, Wrangell, Juneau, Kodiak, Ouzinkie, Skagway, Klukwan, and other locations. We also trained 18 new trainers to deliver AlaskaHost workshops in rural Alaska locations.
- Along with partners and contractors, we developed and delivered targeted tourism training workshops in rural Alaska (Yukon-Kuskokwim Delta, Copper River Basin, Prince of Wales Island, and others), including Starting & Operating a Bed and Breakfast, Limited Operator of Uninspected Passenger Vessels, United States Coast

Guard 6-Pack License, Food Service Basics, Interpretive Guide Training, Working with the Film Industry and Cultural Host.

- Helped four emergent rural Alaska regions to boost their image or market share in the visitor industry, the benefits include more efficient marketing and greater collective attractions; we assisted with employee training and marketing strategies (southwest Alaska, Klukwan, Lower Kuskokwim, Prince of Wales Island).

Economics

- Completed the 2007 Alaska Economic Performance Report and redesign.
- Completed estimate of the economic impact of the Juneau energy crisis.
- Completed analysis of a proposal to increase the tourism marketing budget by \$1 million for in-state marketing.
- Refined Net Rate of Return report to improve information quality.
- Provided Governor's Office with economic information related to economic disaster declarations.
- Worked with Alaska Department of Fish and Game staff on evaluations of two economic impact studies related to Alaska's fisheries.
- Completed report for Alaska Industrial Development and Export Authority on the economic impact of the Ketchikan Shipyard.

Alaska Regional Development Organizations (ARDORs)

- Completed the 2008 ARDOR Annual report.
- Increased the ARDOR regions from 11 to 12 in Alaska, Interior Rivers newest ARDOR.
- Completed the 12 ARDORs portion of the EDA/CEDA grant (Coalition for Economic Development in Alaska). Funding for economic development training was provided to the twelve ARDOR regions; University of Alaska, Anchorage continues to offer courses for all Alaskan organizations.
- Provided assistance and administration of the U.S. Treasury pilot grant, in the development of the Financial Educational and Training program for two regions in Alaska. This will continue through 2010.

Made In Alaska

- Increased the exposure of Made In Alaska (MIA) products adding additional display cases around the state and in ferry terminals in Whittier and Juneau.
- Increased enforcement and the integrity of the program, federally registering the MIA Logo as the programs Trademark.
- Completed evaluation and report of the Made In Alaska program.

Small Business Assistance Center

- Participated in the Alaska Village Initiatives (AVI) conference.
- Participated in the AFN/AK Marketplace program.

Forestry

- Alaska's first wood pellet manufacturing plant came on line in early 2009. It's called Alaska Pellets, a subsidiary of Dry Creek Logging & Milling, located near Delta Junction. Output capacity is 1 ton/hour and they are utilizing residuals from their house log plant and sawmill. So far they have produced approximately 125 tons. The goal is to ramp up to 300-400 tons/year of pellets, but that may be limited by the quantity of residuals available. Presently their market is Delta, Tok and North Pole, with some customers in Fairbanks.
- Finished birch board production in southcentral Alaska increased with the startup of one new mill and increased production at another.
- A second phytosanitation facility opened in China, improving the economics of Alaska's log exports; which in turn will enable an increase in the volume harvested on private lands. This will both stabilize existing jobs and create new jobs in Alaska.

Minerals

- Report of the 2009 Alaska Minerals Commission.
- Alaska's Mineral Industry 2008 report.
- Alaska's Mineral Industry 2008: A Summary.
- The USGS and Mining Engineering articles were published this spring 2009.

1004 Gen Fund		150.0										
<p>This funding will be utilized to continue the popular Developing Alaska Rural Tourism (DART), Tourism Mentorship (TMAP), AlaskaHost and other tourism programs that focus on ways to capture visitor dollars at the local level in rural Alaska. These programs were previously federally funded with a 1:1 GF match.</p> <p>As part of these programs, staff is on the ground in villages working directly with local people to foster the entrepreneurial spirit, connecting locals with professionals, the University, and other economic development organizations. One of the program's success stories was recently a featured article in USA Today – the polar bear viewing in Kaktovik. Other success stories include:</p> <ul style="list-style-type: none"> - Chevak Bird Watching that is booked constantly - Guiding, lodges, Bed and Breakfast's - Chilkat Indian Village - and a number of other businesses <p>Funds are for planning, training, and technical assistance for rural tourism development projects, tourism business development and training, and developing regional marketing strategies. Without the requested funding, the program will continue at a 50% level using only the GF that previously matched to the federal funds. This will result in fewer participants having access mentorship programs and trainings. In addition, in person trainings and consultations will be shifted to web programs – which are always less successful when trying to develop businesses in rural villages.</p>
